RE: Request for Special Temporary Authority for
OFS Facility WNTC-430, Portland, Oregon

Dear Sir or Madam:

National Minority TV, Inc., ("NMTV") by its undersigned attorney and pursuant to Commission Rule 94.43, hereby respectfully requests Special Temporary Authority (STA) to operate OFS facility WNTC-430, Portland, Oregon. The referenced facility was first applied for in January 1990, and granted on March 15, 1990 (see Attachment A). This application has been resubmitted and is filed concurrently with this STA request (see Attachment B).

The WNTC-430 facility was not, unfortunately, built within the 12 months authorized and was subsequently deleted by the Commission on August 7, 1991. However, construction for WNTC-430 had been delayed, which was reported to the Commission, and the facility has since been completed and is ready to be made operational. A new frequency certification has been executed and no operational interference is foreseen for the WNTC-430 facility (or whatever new call sign may be assigned).

Accordingly, in order to begin immediate service to the public NMTV respectfully requests Special Temporary Authority to operate the WNTC-430 facility pursuant to the parameters specified in the attached application until such time that the Commission grants its resubmitted application.

Pursuant to section 1.1104 of the Commission's rules, a check in the amount of \$35.00 made payable to the "Federal Communications Commission," along with the required "Fee Processing Form" (FCC Form 155) are tendered herewith.

The applicant respectfully requests that the enclosed copy of the application, marked "COPY," be stamped as received and returned

October 8, 1991

to the undersigned in the enclosed self-addressed, stamped envelope.

If any questions should arise concerning this matter, kindly contact the undersigned directly.

Respectfully submitted,

NATIONAL MINORITY TV, INC.

CONDITIONS OF GRANT

- A. Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts, treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions and requirements set forth in this authorization the licensee or permittee hereof is authorized to use and operate the radio transmitting facilities herein described. This authorization shall not vest in the licensee or permittee any right to operate the station nor any right in the use of the frequencies designated in the authorization beyond the term hereof, nor in any other manner than authorized herein.
- B. Neither this authorization nor the right granted herein shall be assigned or otherwise transferred to any person, firm, company, or corporation except by specific authorization of this Commission.
- C. This authorization is issued on the licensee's representation that the statements contained in the licensee's application are true and that the undertakings therein contained, so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such service as will serve the public interest, convenience, or necessity to the full extent the privileges herein conferred.
- D. This authorization is subject to the right of use or control by the Government of the United States conferred by Section 606 of the Communications Act of 1934, as amended.

RE: Resubmitted Application of National Minority TV, Inc.
For a Private Operational Fixed Microwave Radio Station
Service to Serve Portland, Oregon

Dear Ms. Searcy:

Transmitted herewith, on behalf of the above-referenced party, is an original and one copy of its application for a fixed microwave radio service (FCC Form 402).

Please note that this application is a resubmission of an earlier filed application. The original application was granted on March 15, 1990 and was given call sign WNTC-430. Unfortunately, the facility was not built within the 12 months authorized and was subsequently deleted by the Commission on August 7, 1991. This application seeks the reissuance of the WNTC-430 authorization, and in the interim an STA request is being concurrently filed with this application.

In addition, a current frequency certification is attached and no operational interference is foreseen for this facility.

Pursuant to section 1.1104 of the Commission's rules, a check in the amount of \$35.00 made payable to the "Federal Communications Commission," along with the required "Fee Processing Form" (FCC Form 155) are tendered herewith.

The applicant respectfully requests that the enclosed copy of the application, marked "COPY," be stamped as received and returned to the undersigned in the enclosed self-addressed, stamped envelope.

It is also respectfully requested that once this application is granted, the authorization be sent directly to the undersigned at the address noted above.

October 8, 1991

SECTION IV—CERTIFICATION

1. Applicant waives any claim to the use of any particular frequency regardless of prior use by licensee or otherwise.
 2. Applicant will have unlimited access to the radio equipment and will control access and exclude unauthorized persons. Neither applicant nor any member thereof is a foreign government or representative thereof.
 Applicant will utilize type accepted radio equipment and antennas of correct specifications.
 5. Applicant certifies that all statements made in this application and attachments are true and complete.

WILLFUL FALSE STATEMENTS MADE ON THIS FORM OR ATTACHMENTS ARE PUNISHABLE BY FINE AND IMPRISONMENT U.S. CODE TITLE 18 SECTION 1001

FEES. Except for Public Safety, Special Emergency, Governmental, and Noncommercial educational broadcast applicants, each Microwave station application must be accompanied by a \$135 fee and filed at: FCC, Microwave Service, P.O. Box 360553M, Pittsburgh, PA, 15251-6850. For information on fees call (717) 337-1212.

NOTICE TO INDIVIDUALS REQUIRED BY PRIVACY ACT OF 1974 AND THE PAPERWORK REDUCTION ACT OF 1980

Sections 301, 303, and 308 of the Communications Act of 1934, as amended, (licensing powers) authorize the FCC to request the information on this application. The purpose of the information is to determine your eligibility for a license. The information will be used by FCC staff to evaluate the application, to determine station location, to provide information for enforcement and rule-making proceedings and to maintain a current inventory of licensees. No license can be granted unless all information requested is provided. Your response is required to obtain this authorization.

Supplemental Filing to Application for Private Operational
Fixed Station for National Minority TV, Inc.

This is to certify the frequency which was originally filed for in the applicant's original application for station WNTC 430 has been in storage in the Comsearch, Inc. database for the purpose of protection services since two weeks of the original date of application. As a result, no operational interference is foreseen by the Commission granting of a new authorization or reinstatement of the canceled authorization.

Included in this exhibit is a letter from Michael R. Roth, Private Microwave Engineer, Transmission Planning Services, Comsearch, Inc., stating his belief on this matter.

The above information is true and correct to the best of my knowledge and belief.

RE: Re-certification Letter
National Minority TV, Inc.
960 MHz Microwave System
Revoked License Call Sign WNTC430

Dear Mr. Hayden:

A copy of the Federal Communications Commission microfiche record for the station referenced above is attached. This information is stored in our 960 MHz database and has resided there since within two weeks of the date that the application for the station originally appeared on FCC Public Notice as accepted for filing.

Microwave paths which are subjected to a frequency engineering analysis by Comsearch are compared against this database in order to certify that the interference protection criteria of Part 94.63 of the Commission's Rules is met.

No operational interference is foreseen as a result of the FCC renewing the microwave system referenced above.

Sincerely,

COMSEARCH

Michael R. Roth
Private Microwave Engineer
